Short CV

Kenneth M.C. Cheung is the Chair Professor and Head of the Department of Orthopedics and Traumatology, The University of Hong Kong, and is a well-recognized leader in the field of Spinal Surgery and research globally.

His research interests are in the genetics of intervertebral disc degeneration and scoliosis, stem cell regeneration of the disc, and the development of novel surgical technologies for the treatment of spinal deformities. He has been invited as visiting professor and speaker on multiple occasions to international meetings.

He has published 14 book chapters and 280 publications in top scientific and spine journals. His work has been cited more than 4065 times around the world.

He is the past President of the Scoliosis Research Society, as well as the Editor-in-Chief of the Journal of Orthopaedic Surgery.
