Short CV

Professor Dr. Tunku Kamarul Zaman Tunku Zainol Abidin is presently the director of University of Malaya Medical Centre (UMMC), a premier 1500 bedded university hospital in Malaysia staffed by over 5,000 personnel. He is by profession an orthopaedic surgeon with special interest in upper limb and microsurgery.

He was awarded a national scholarship to pursue his sub-specialty training in the Royal Liverpool and Broadgreen hospitals from 2006 till 2010. During that period, he also obtained a PhD degree from The University of Liverpool. Upon his return to Malaysia in 2010, he was appointed the head of the tissue engineering group, a division under The National Orthopaedic Centre for Research and Learning (NOCERAL).

He has published over 150 peer-reviewed articles in many impact factored journals and has been invited to present the research groups; discoveries in numerous international scientific meetings.

He also heavily involved in the administrative duties of his institution. His previous administrative duties also includes being the deputy dean of research for faculty of medicine, acting dean for faculty of medicine, deputy director (clinical) for UMMC, director for the Clinical Investigative Centre in UMMC (an internationally award winning centre that conducts over 200 clinical trials a year) and, head of research in NOCERAL.
